

Senja VGS was authorized as an IB World School in 2007 – the very first IB school in the Arctic. Since then, we have proudly welcomed students from across the globe to our unique learning environment. To make the experience even more rewarding, we offer a modern and spacious boarding facility where IB students are given priority. Here, students enjoy three nutritious meals a day, including a hot dinner, in a safe and supportive community that fosters both academic success and personal growth.
